

SL T2™ NECK SHADE

ENGINEERED PROTECTION THAT SURROUNDS

Elevate the SL T2 Safety Helmet with the SL T2 Neck Shade, crafted for extended sun protection. The shade swiftly clips into the helmet, providing additional coverage without compromising functionality or comfort.

FEATURES

ENHANCED SUN PROTECTION: Reduces the risk of sunburn and heat-related discomfort by shielding the back of neck.

HIGH-VISIBILITY DESIGN: Hi-vis ripstop polyester and reflective strip, ensuring safety and awareness.

EFFORTLESS ATTACHMENT: Attach and detach the neck shade with ease, thanks to its intuitive design that ensures a snug and secure fit every time.

 HPT2CNS130 sold separately from the SL T2 Safety Helmet.

INSTRUCTIONS

TO ATTACH NECK SHADE TO HELMET

1. Hold neck shade with the reflective strip facing outward.
2. Position the neck shade at the back of the helmet, aligning it with the designated accessory slots.
3. Firmly snap the clips on the neck shade into the accessory slots and ensure that each clip locks in place.
4. Locate the middle tab on the neck shade and insert it into the slot on the back of the helmet.

TO REMOVE NECK SHADE FROM HELMET

1. Grasp the neck shade firmly, holding it straight out from the helmet.
2. Apply a strong, steady pull to detach the clips from the accessory slot.
3. Continue pulling until the neck shade is completely removed from the helmet.
