INSTRUCTIONS

TO REMOVE CHIN STRAP FROM HELMET

1. Locate the bottom of the tab where the chin strap connects to the helmet.
2. Push and hold the bottom of the tab.
3. Pull strap firmly to detach it from the helmet.
4. Repeat for the other three points.

TO ATTACH CHIN STRAP TO HELMET

1. Before installing, ensure plastic O-ring is in place on the strap.
2. Align the chin strap to ensure that the closure is positioned at the front of the helmet.
3. Firmly press each of the four tabs on the chin strap into their respective slots on the helmet.
4. Ensure that each tab firmly locks into place for a secure fit.
